- 30% of everything we ever earn will go to helping others
- We are extremely dedicated to this goal
- I (Raymond Dew) have incredible skills in Cryptocurrency and anything Technology related
- We will only ever keep 10% of the Tokens Holdings and 20% of those will be used For Charitable causes
- I must Teach people How to address issues by talking and i want to get involved with conflict resolution as ive done that a lot.

The Token on TRON Blockchain

This Token is designed to help innocent Civilians transfer their Native Currency into URP on the TRON blockchain.

This Token (UPC) is for a very good cause, people are people and Russian lives are just as valuable as anyone's, they do not deserve to starve, because of their government and in my opinion cruel sanctions put on them by the west, people are suffering people just like you not the military or Putin, the people who are brainwashed by their government like all people in every country.

The Ukrainians are suffering a brutal and unprovoked attack which has not been seen since world war 2, the fear they would feel trying to get to sleep thinking they could die at anytime or lose their children.

This is not military fighting its military killing children and innocents, that fear would be beyond anything, I will help both sides as much as I can, by providing anything they ask me for within the budget.

I also want the rest of the world to adopt this coin as it will go to a great public service and make you a lot of money too :)

It's Now Available to trade The contract address is : TYob9ZzMr2D4twTXWi9QtHA7Vj1fJxALob

30% of our profit from all of our business ventures will go toward charitable causes all over the world.

We believe with sound calculation our Token Will reach the value of between \$0.001-\$0.06 per token by 2023 and up to \$1 per token within 10 years.

I want to be completely transparent so much so that I have supplied all my personal details that can be verified but please respect my privacy and honesty, let's help the world together :)

So to The MOON...
